External clinical advice team member (ECAT) Royal college of Ophthalmologists and the Royal College of Surgeons

South Western Ophthalmological Society (President)

Medico-legal work

I have been actively engaged in medico-legal work throughout most of my Consultant career.

I am happy to provide expert opinion in most aspects of Ophthalmic Surgery, but do have a special interest and expertise in Corneal and External eye disease and Refractive surgery including Laser vision correction.

I have recent experience of giving expert evidence in Crown Court.

I currently provide approximately one report every 2-3 weeks.

I have a previously "checked" (refereed) listing in the Expert Witness Directory (Sweet and Maxwell)

I am currently working towards the Cardiff University Expert Witness Certificate

Average waiting time for a report from instruction: 4 weeks
